NORWICH BULLETIN

Willimantic Office
41 Church Street Telephone 1062

Two additions to the city's fire fighting apparatus have been made by the fire committee, one an Eastern Perfection holder, and the other a nozzle container. The holder, which arrived at the Bank street engine house Tuesday and which has a tripod and base attachment, is to be used in connection with the pump. The holder has connections for two lines of hose, thus giving it double range, and power. Still another advantage is that the holder can be left without any fireman holding it, as the hose and tripod attachment have grips, giving the men an opportunity to fight the fire in another direction.

The contrivance which can be pivoted to any point will be carried with the hook and ladder truck. The other addition is a nozzle container which is to be attached to the light truck. When the nozzle is inserted into the container the fireman can also leave this piece, another advantage in it is that it can be moved in any direction.

Plans for the club house of the Willimantic Recreation and Realty company have been prepared by Architect Archibald R. Chase and are in the hands of building chairman, William P. Jordan and his committee. They call for a club house of wood, one story high, 40 by 55 feet, with the front facade west. The roof will pitch slightly and there will be a veranda on two sides and the front. The lounge room will take up the entire west end of the building, 40 feet and extend back about thirty feet. In the center of this room will be a large fireplace. In the rear of the lounge room will be the kitchen, 13 by 17 feet. To the left of this will be the women's lockers and to the right the men's lockers, each 10 by 14 feet. There will be six entrances to the building. The club house, which is to be built on a side hill allows for a basement or cellar directly in the front center, 15 by 11-1/2 feet. The clearance

Beauty Secrets

BY BESSIE LOVE

"The secret of a beautiful complexion is the proper care of the skin," says Bessie Love, that well known beauty expert. The best way to keep the complexion clear and beautiful is to use a good skin cream. This cream should be used twice a day, morning and evening. It should be rubbed into the skin gently, and then the face should be washed with cold water. This will keep the skin clear and free from blemishes. It will also keep the skin soft and supple. This is the secret of a beautiful complexion. Use a good skin cream, and you will have a beautiful complexion.
